GLADIOLI

If you are looking for the most satisfactory flower, and at the same time the easiest to grow, you should plant Gladiolus. There are no finer flowers for both cutting and garden display. You need not hesitate to order any of the varieties we offer, even though you are not familiar with them, as they will please the most critical buyer. Cut spikes when the lowest flower shows color, and all the others on the spike clear to the top will open.

BEACON—Clear bright rose scarlet with large cream blotch.

BETTY NUTALL—Lovely orange salmon. Late.

BILL SOWDEN—Early deep blood red. Ruffled.

BLEEDING HEART—White tinted light pink with a large red blotch.

BLUE ADMIRAL—The very best dark blue.

DEBONAIR—LaFrance pink shading to shrimp with creamy throat blotch.

EARLY ROSE—Medium shades of rose. Early.

EDITH ROBSON—Light salmon rose with reddish blotch.

GOLDEN CUP—Deep yellow.

KING ARTHUR—Ruffled rosy lavender or mauve.

LUCIFER—Bright orange with crimson blotch.

MAYTIME—Early, light creamy salmon with a cream throat.

MINUET—Beautiful light pinkish lavender.

PICARDY—Soft shrimp pink with flesh pink throat, or which is a feathering of rose.

SMILING MAESTRO—Deep salmon rose slightly flaked darker.

STAR OF BETHLEHEM—Very large pure white. Touch of cream in throat.

SYMPHONY—Light rosy pink with clear cream blotch.

Prices on all above named varieties:

Each 6c; Doz. 60c. Special—"Glads" from above named varieties—your own selection—50 for \$2.25; 100 for \$4.00.

"GLADS" IN MIXED COLORS—Not named or labeled, but contains only first class stock of good varieties. Doz. 40c; 50 for \$1.50; 100 for \$2.75.

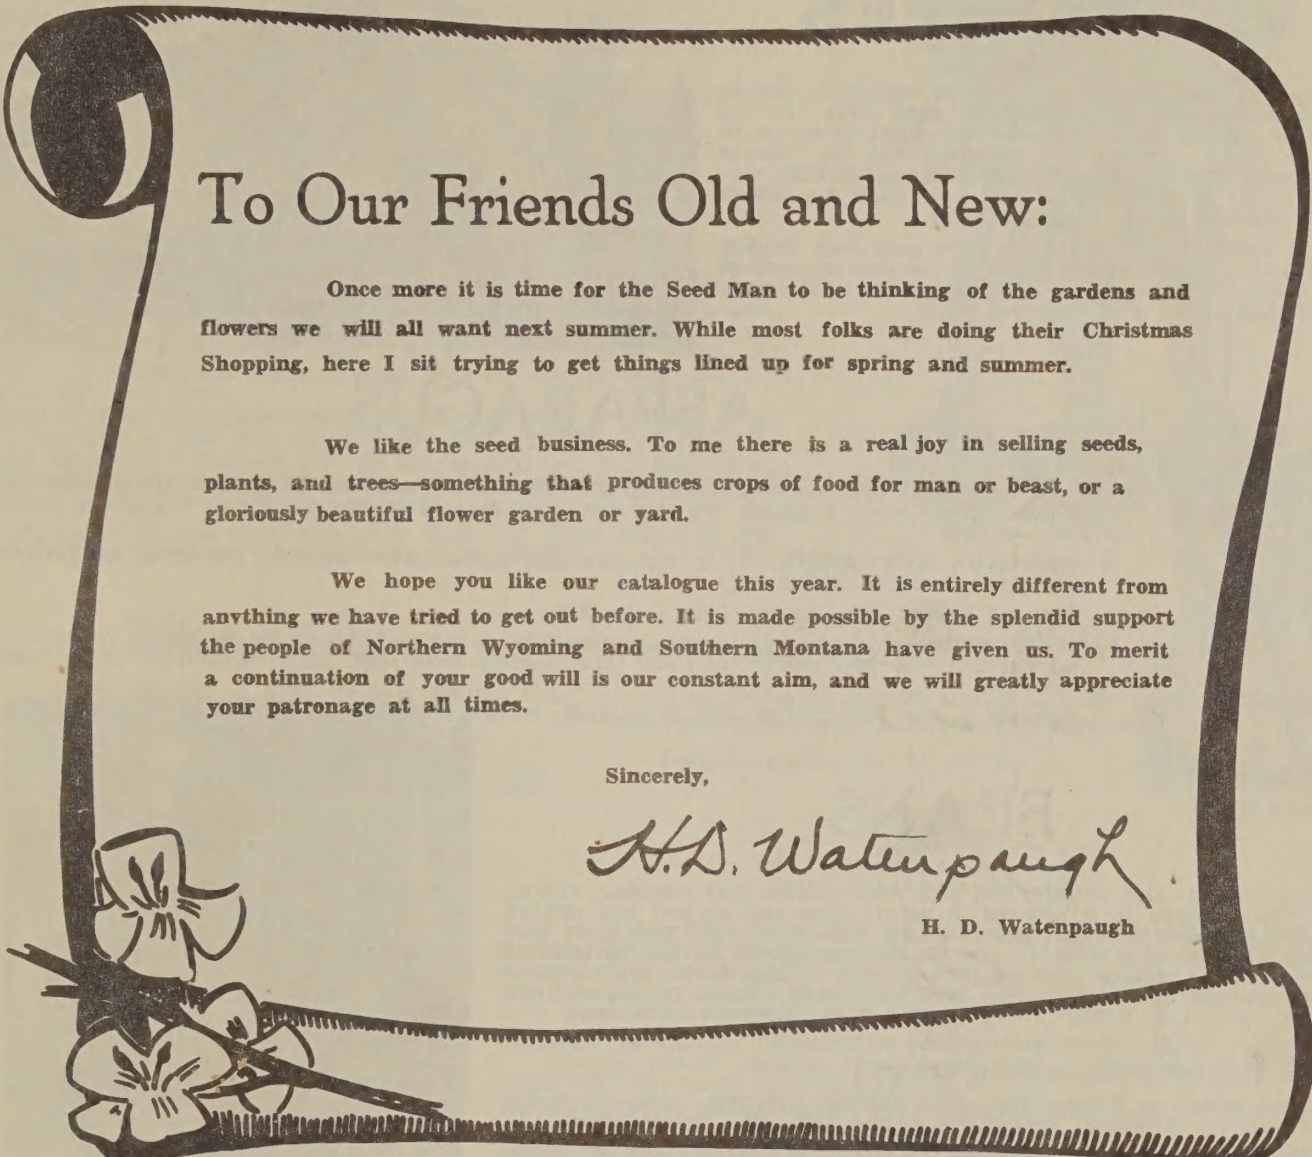

EARLY BIRD OFFER

Following our usual practice, we are giving an extra premium to all who send in their garden and flower seed orders early. You know it helps us a lot to get some of the business taken care of before the rush season starts, so we always make an offer of something worthwhile to help our customers too. Last year we gave with the early orders a copy of a splendid little book called "BETTER GARDENING," written by Harry R. O'Brien, "The Plain Dirt Gardener."

We have a limited supply of these left, and you may have your choice of one of these books, or (2) Two packets of the new Rose Pink Sweet Pea, or (3) One-half pound package of either variety of Hybrid Sweet Corn.

The above Early Bird Specialties will be given free with all orders of garden or flower seeds amounting to \$2.50, which are received before April 1.

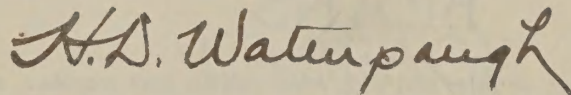

To Our Friends Old and New:

Once more it is time for the Seed Man to be thinking of the gardens and flowers we will all want next summer. While most folks are doing their Christmas Shopping, here I sit trying to get things lined up for spring and summer.

We like the seed business. To me there is a real joy in selling seeds, plants, and trees—something that produces crops of food for man or beast, or a gloriously beautiful flower garden or yard.

We hope you like our catalogue this year. It is entirely different from anything we have tried to get out before. It is made possible by the splendid support the people of Northern Wyoming and Southern Montana have given us. To merit a continuation of your good will is our constant aim, and we will greatly appreciate your patronage at all times.

Sincerely,

H. D. Watenpaugh

ABOUT GUARANTEE

We have used every possible care to secure seeds that are true to name, carefully selected, and of proper germination and purity. Owing to so many conditions beyond the control of either seedsman or planter, however, we cannot guarantee the description, purity, germination, productiveness, or any other matter of seed we send out, and will not be in any way responsible for the crop. If the purchaser does not accept the goods on this basis, no sale is made and your money will be cheerfully refunded if the seed is returned promptly.

NORTHERN SEED COMPANY

WYOMING SALES TAX

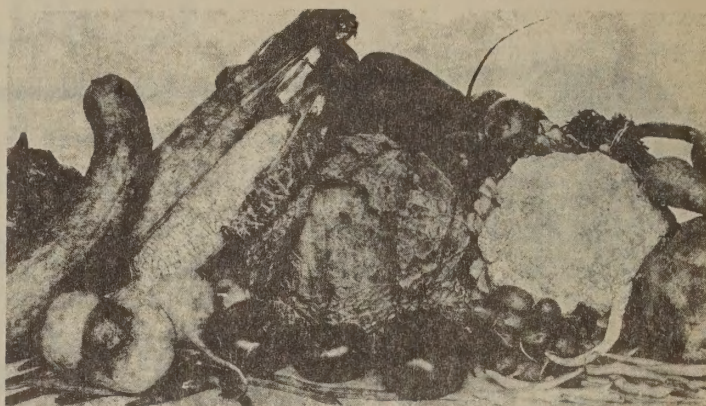

The Wyoming Selective Sales Tax Law in Wyoming exempts feeds only "for use in feeding livestock or poultry for marketing purposes." It also exempts "all sales of seeds, roots, bulbs, small plants and fertilizer planted or applied to land, the products from which are to be sold."

Feed, seed, etc., other than for the above purposes is therefore taxable, as are all supplies, garden tools and miscellaneous articles which we handle. Wyoming customers will please add 2% to the amount of their orders for such items to cover this tax. Mail orders to be shipped outside of the state are not subject to Wyoming Sales Tax.

VEGETABLES

When it comes to quality, no finer vegetables can be grown anywhere in the world than right here "In the shadow of the Big Horns." Special care must of course be taken to insure planting only varieties that are "Proved Hardy Under Test." MOUNTAINEER BRAND SEEDS have been specially selected so that you can count on success with all varieties listed in our catalogue.

It is always a nice thing to have your own garden. This year it will be especially desirable, because the defense needs of our country may make shipping of vegetables more difficult than it has been in recent years.

ASPARAGUS

PARADISE

1 oz. to 50 ft. of drill. Asparagus will grow in almost any soil, but its growth and development is retarded by too much moisture. We can supply either seed or plants. Plants are listed in our Nursery Section.

WASHINGTON RUST-PROOF—It is rust-resistant, particularly vigorous, wonderful quality, and the most generally used strain.

Postpaid prices: Pkt. 10c; oz. 20c; ¼ lb. 50c.

PARADISE—New sensation, rust resistant strain that is taking the country by storm, producing a normal crop one year earlier than any other variety from seed. An exceptionally strong, vigorous producer.

Postpaid prices: Pkt. 15c; oz. 50c; ¼ lb. \$1.25.

BEANS

Beans are very easy to raise and pick; your garden isn't complete without a few rows of beans in it. Cooked in many ways, also canned and pickled, they cut your food bills and give healthful variety to your diet, since they are filled with vitamins A, B, C, and D. Planting should be delayed until all danger of frost is past, or until about the middle of May in our section. Have beans all summer by planting every two weeks, until August. Do not cultivate while wet. Plant 1 lb. to 150 ft. of drill. The large varieties require more.

(Bean prices at end of bean list)

WAX OR YELLOW PODDED BUSH BEANS

Round Pod Brittle or Kidney Wax—The earliest wax bean, pods are fleshy, and entirely stringless. Fine flavor, round and solid. Prices below.

Black Wax Pencil Pod—Very desirable for home and market. Pods are handsome bright yellow. Seeds black. Prices below.

GREEN PODDED BUSH BEANS

Asgrow Stringless or Tendergreen—The pods are long and round, free from strings, and dark green in color. A new bean of real merit. We urge a generous planting. Prices below.

Full Measure—A main crop variety round podded stringless, with very fleshy straight pods 6 to 6½ in. long. Seeds brownish red mottled with buff. Prices below.

Burpees Stringless Green Pod—High quality, thrifty round meaty pods. A heavy bearer, and excellent flavor. They will stand the dry weather better than any other variety. Main crop. Seeds dark brown. Prices below.

Bountiful—Leading flat podded, light green, and one of the earliest beans. Stringless when young. Prices below.

POLE OR CLIMBING BEANS

Kentucky Wonder—This most popular of all pole beans should be in every garden. Pods are green, round and long, easily measuring 9 to 10 inches; always stringless as snap beans, and never become tough. Prices below.

Tall Horticultural—"Bird Egg" or "Speckled Cranberry." Excellent for snaps when young and are stringless. The dried beans are grown extensively for winter use. We have the large variety of these beans which we have grown ourselves. Highly recommended as a baking bean. Prices below.

DWARF, SHELL, AND LIMA BEANS

Henderson's Bush or Baby Lima—Very early, pods flat, shelled beans are flat and of excellent quality. Prices below.

California Cream Butter or Aztec—Large, round, white lima of extra fine flavor. Our stock is grown locally, so we know it is sure of maturity here. Good as a shell bean or when dry. Prices below.

Dwarf Horticultural—Slightly larger than the tall Horticultural bean, sometimes used as a snap bean. The pods become stringy earlier, best used as a shell or dried bean. Flavor all its own. Prices below.

London Horticultural—A "Cranberry Bean" for use as a green shell bean or dry. Pods are long, oval splashed with red and very fleshy. The dry bean is much larger than any other bean of the same class. Prices below.

Prices on all Garden Beans—Postpaid: ½ lb. 20c; 1 lb. 30c. Not Postpaid: ½ lb. 15c; 1 lb. 25c; 5 lbs. or more @ 22c per lb.

Ask for prices on large quantities

Do Not Cultivate Around Your Beans When the Land Is Wet With Rain or Dew.

Tendergreen

BEETS

BEETS FOR TABLE USE—1 oz. to 100 ft. of drill.

Early Wonder—An early variety which matures rapidly, attractive vermillion red, sweet and free from strings.

Crosby's Egyptian—Best for forcing and early market. Tops small and upright. Flesh dark. Main crop.

Detroit Dark Red—The standard of excellence, flesh dark red, very sweet and tender. A good canner.

SWISS CHARD—A member of the beet family, and preferred by many in place of Spinach. The mid ribs too are edible and tender, prepared the same as Asparagus.

Postpaid Prices on Table Beets and Chard: Pkt. 5c; oz. 10c; ¼ lb. 30c; 1 lb. 90c. Not postpaid: 1 lb. 85c; 5 lbs. or more @ 80c per lb.

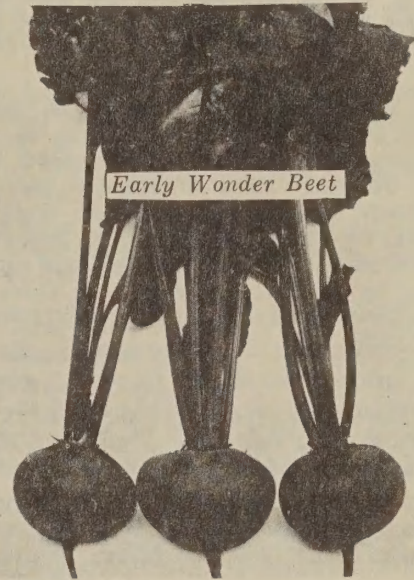

MANGEL OR STOCK BEETS—1 oz. to 100 ft. of drill or 5-6 lbs. to acre.

One of the most important of all root crops for feeding and form the best winter feed for cattle and hogs. As a substitute for green feed for poultry, during the winter months, they are very valuable, and increase egg production.

Mammoth Long Red—The largest and most productive mangel. Easily harvested as half the mangel grows above ground.

Giant Half Sugar Rose—A favorite among dairymen and hog-raisers. Very sweet and nutritious having a larger sugar content than the ordinary mangel. White flesh and early.

Prices on Mangel Beets—Postpaid: 1 oz. 10c; ¼ lb. 25c; 1 lb. 60c. Not Postpaid: 1 lb. 50c; 5 lbs. or more @ 45c per lb.

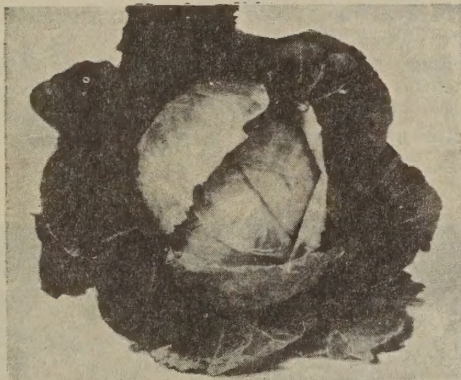

BROCCOLI

¼ oz. to 100 ft. of drill. This is similar to Cauliflower, but with a more distinctive flavor. Easy to grow. We also have Broccoli plants.

Italian Green Sprouting—Large compact, bluish green head. Postpaid prices: Pkt. 10c; oz. 35c.

COPENHAGEN MARKET

DANISH BALLHEAD—A standard late cabbage for any purpose. Heads are good size, hard, and compact. Keeps well and makes very good kraut. Postpaid prices: Pkt. 5c; ½ oz. 15c; 1 oz. 25c; ¼ lb. 75c.

DANISH ROUND HEAD—(Short Stem) Heads larger than Ballhead, very solid round heads, crisp and tender, interior leaves blanch white. Postpaid prices: Pkt. 5c; ½ oz. 15c; 1 oz. 25c; ¼ lb. 75c.

PENN STATE BALLHEAD—Silver Medal A. A. S. of '34. Very highly recommended for storage and kraut. Heads slightly flattened, round and solid, each head weighing 8 to 9 lbs. Yields heaviest tonnage to the acre. Postpaid prices: Pkt. 5c; ½ oz. 15c; 1 oz. 25c; ¼ lb. 75c.

DRUMHEAD SAVOY—Heads large and solid, heavily blistered or crimped leaves, milder more pleasing flavor. Sure heading. Postpaid prices: Pkt. 5c; ½ oz. 20c; 1 oz. 30c.

CHINESE CABBAGE—Delicious vegetable combining a rich celery flavor with that of the cabbage. Can be eaten raw as a salad or cooked like cabbage or asparagus. Postpaid prices: Pkt. 5c; ½ oz. 15c; 1 oz. 25c.

LATE FLAT DUTCH—Very large, late cabbage, popular for home and market. A good keeper. Heads flat. Postpaid prices: Pkt. 5c; ½ oz. 15c; 1 oz. 25c; ¼ lb. 75c.

BRUSSELS SPROUTS

¼ oz. to 100 ft. of drill. Unique member of the cabbage family, and requires the same culture as for late cabbage.

Postpaid prices: Pkt. 5c; oz. 20c.

CABBAGE

1 oz. makes 3,000 plants. Sow early kinds in hot beds in March and April, transplanting in the open when plants are of proper size. Late varieties for fall and winter use should be sown in cold frames in April, transplanting well into June. Many customers prefer buying their plants for home use, and for their convenience we are growers of all varieties listed.

GOLDEN ACRE—An extra early variety, producing uniform, round, well-balanced heads, weighing about 3 lbs. with fewer outer leaves. Postpaid prices: Pkt. 5c; ½ oz. 20c; 1 oz. 30c; ¼ lb. \$1.00.

EARLY JERSEY WAKEFIELD—Early pointed heads small but firm. Postpaid prices: Pkt. 5c; ½ oz. 15c; 1 oz. 25c; ¼ lb. 75c.

EARLY FLAT DUTCH—Excellent second early, with large solid flat heads. Postpaid prices: Pkt. 5c; ½ oz. 15c; 1 oz. 25c; ¼ lb. 75c.

COPENHAGEN MARKET—For many years a favorite medium early cabbage. Heads solid, round, and of good quality. Short stems. Postpaid prices: Pkt. 5c; ½ oz. 15c; 1 oz. 25c; ¼ lb. 75c.

CELERY

1 oz. of seed will produce about 5,000 plants. You can raise celery here as easily as it can be raised in California. It is a profitable crop, but requires lots of moisture throughout the growing season, but do not flood. Sow seed early, as it is slow in germinating.

GOLDEN DETROIT—A self-blanching variety of a rich golden yellow color; crisp, tender, and of fine flavor. Early. Postpaid prices: Pkt. 10c; ¼ oz. 20c; ½ oz. 35c; 1 oz. 60c.

GIANT PASCAL—Largest celery grown, stalks tall, and when blanched are a yellowish white. Later variety and a good winter keeper. Postpaid prices: Pkt. 5c; ¼ oz. 15c; ½ oz. 35c; 1 oz. 60c.

Six 5c Packets for 25c; Six 10c Packets for 50c (Including ounces priced at 10c)

CAULIFLOWER

1 oz. of seed will produce about 3,000 plants. A vegetable of refinement, which should be grown more extensively, using the same methods as for cabbage. The only great difference is that cauliflower heads must be protected from sunlight so as to make sure of the desirable white head. Gather the top leaves together loosely as soon as heads begin to form. It is important not to cramp the heads. We grow plants of all varieties listed. Let's grow more cauliflower and try preparing it in different ways.

EARLY SNOWBALL—An early maturing, short leaved type. pure white head. Postpaid prices: Pkt. 10c; ¼ oz. 75c; ½ oz. \$1.10; 1 oz. \$2.00.

DANAMERICA—A winner that should be at the top of the list. Medium early, heads of good size, firm; in fact everything you want in perfect cauliflower. Postpaid prices: Pkt. 25c; ¼ oz. \$1.50; ½ oz. \$2.70; 1 oz. \$5.00.

DANISH DRY WEATHER—One of the most dependable in dry weather. Plants short stemmed, heads large, 6 to 7 in. across, and commonly weigh 2 lbs. White tinged with cream. Postpaid prices: Pkt. 10c; ¼ oz. 75c; ½ oz. \$1.10; 1 oz. \$2.00.

CHANTENAY

Mrs. Watenpauß's Favorite Cauliflower Recipe

CAULIFLOWER AU GRATIN

1 med. head cauliflower
1 pint thin cream sauce
2-3 cup grated cheese.

Place cooked cauliflower and sauce in alternate layers in greased baking dish. Sprinkle generously with cheese between layers and on top. Brown in moderate oven. Very delicious. Cabbage and Celery may be treated the same way.

DANAMERICA

CARROTS

1 oz. to 150 ft. of drill. Rich in Vitamins A, B and C, the carrot is unexcelled in the many ways of preparing it for the food diet, either cooked or raw, and a vegetable we never tire of. Plant more carrots.

OXHEART—An excellent sort for shallow soils. Roots are blunt and thick, easily pulled and keep well.

CHANTENAY—Popular bunching carrot, large size, fine in texture and good quality.

IMPERATOR—A recent introduction with long roots tapering to a semi-blunt tip. Deep orange color, smooth crown, good and sweet.

DANVER'S HALF LONG—An excellent bunching variety, dependable, a first class carrot for all soils. The flesh is deep orange, tender, and of good quality. Much used in home gardens, and a good keeper.

Prices on Carrots—Postpaid: Pkt. 5c; 1 oz. 25c; ¼ lb. 75c; 1 lb. \$2.35. Not Postpaid: 1 lb. \$2.25; 5 lbs. or more @ \$2.15 per lb.

SWEET CORN

1 lb. to 500 hills. Like corn on the cob? By selecting the various varieties and making successive planting every two or three weeks, a continuous supply of delicious roasting ears can be had for your family until frost. Use boiling water in cooking corn. Add a pinch of sugar in place of salt to the water; it will add to the natural sweetness.

HYBRID SWEET CORN—Varieties of Hybrid corn are rapidly becoming more popular. Have better root systems and larger more uniform ears insuring larger and better crops. Disease and wilt-resistant. Do not save seed from any hybrid corn; it will not reproduce true to type.

GOLDEN CROSS BANTAM HYBRID—Shows great ability to withstand wilt and adverse weather conditions. Has large golden ears and matures about a week later than regular Golden Bantam.

KINGSCROST GOLDEN BANTAM HYBRID—Extra early, drought resistant selection, ears similar to ordinary Bantam. Excellent quality, and a favorite with market gardeners.

Either variety of Hybrid Sweet Corn, Postpaid prices: ¼ lb. 15c; ½ lb. 25c; 1 lb. 40c. Not postpaid: ½ lb. 20c; 1 lb. 35c; 5 lbs. or more @ 30c per lb.

GOLDEN BANTAM—Most widely known and generally used. Very productive, kernels tender, sweet, delicious flavor.

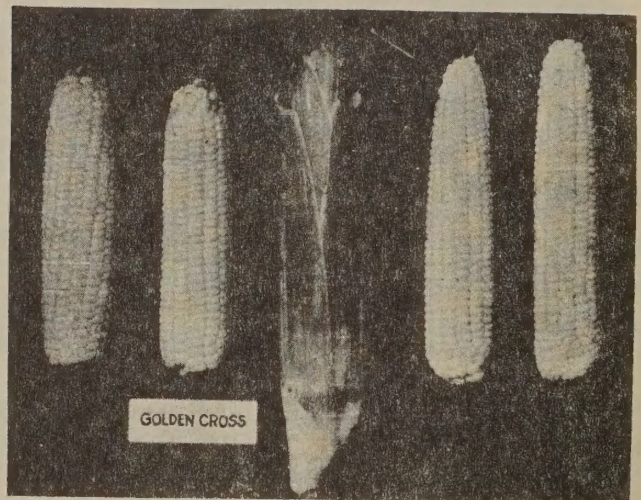

GOLDEN GEM—One of the earliest varieties of yellow corn offered, about two weeks earlier than Bantam. Good flavor.

GOLDEN SUNSHINE—One of the earliest of the golden yellows, about 10 days earlier than Bantam and a much larger ear.

BANTAM EVERGREEN—A cross between Golden Bantam and Stowell's Evergreen, and considered one of the sweetest and best of sweet corns. The ears are much longer and have 12 to 14 rows. Valuable for market gardeners.

EARLY EVERGREEN—Fine flavored, deep white kernels. It withstands drought unusually well, and holds its edible quality better than most varieties. A little later than Bantam.

Prices on Sweet Corn (not including Hybrids) Postpaid: ½ lb. 20c; 1 lb. 28c. Not Postpaid: ½ lb. 15c; 1 lb. 23c; 5 lbs. or more @ 20c per lb. Ask for prices on large quantities.

GOLDEN CROSS

Sow some Radish seed in the same drill with your Carrots to break the soil crust. Gather Radishes when they are large enough; your later crop will be uninjured.

CUCUMBERS

VIRGINIA SWEET PICKLES

Take about 20 medium size cucumbers. Slice and cover with brine. Let stand five days. Drain and rinse with clear water. Cover with water and a tablespoon alum, let come to boil. Drain and cover with water and tablespoon of ginger. Let come to boil and drain.
 4 cups vinegar—6 cups sugar
 1 tablespoon mix spices
 1 teaspoon celery seed
 1 teaspoon mustard seed
 Mix. Pour over cucumbers and cook until clear.

1 oz. will plant 50 hills. Plant a few hills of cucumbers in the garden. You will find many delightful ways of using them, both fresh and pickled. Very easy to raise.

CHICAGO PICKLING—A well known pickling variety, heavily spined, uniform and attractive.

IMPROVED LONG GREEN—An improvement over the old strain of Long Green. Good form, deep green color, long and straight. A market gardener's favorite.

DAVIS PERFECT—Good mid-season, fruit dark green, long, tapering at both ends. Solid flesh with small seed cavity, making it nice for slicing or pickles.

EARLY FORTUNE—Disease resistant variety, which produces a large crop of dark green cucumbers. Good length, crisp flesh, and small seed cavity. Valuable as slicer or for pickles.

Postpaid prices on above cucumbers: Pkt. 5c; oz. 12c; ¼ lb. 35c; 1 lb. \$1.10.

GHERKIN or BURR—A distinct species of cucumbers, exclusively used for pickling. Oval in shape, and covered with spines. Pale green, should be pickled while young. A great delicacy. Postpaid prices: Pkt. 5c; oz. 20c.

EGG PLANT

1 oz. will produce about 1,000 plants. Plant seeds early in hot beds as they are slow in germinating. Transplant when ground becomes warm and danger of frost is past.

NEW YORK IMPROVED—The fruit is large, oval, and a very deep purple. Fine quality.

BLACK BEAUTY—The earliest of all Egg Plants. Retains its glossy black-purple coloring for a long time after picking.

Postpaid prices on either variety: Pkt. 10c; ¼ oz. 25c; 1 oz. 40c.

ENDIVE

1 oz. will sow 150 ft. of drill.

FULL HEART BATAVIAN—Silver Medal A. A. S. of '34. Medium large plant with a compact, full heart. Leaves broad and well blanched.

MOSS CURLED—For autumn or winter salads it is unexcelled. Bleaches to a creamy white.

Postpaid prices for either variety: Pkt. 5c; oz. 15c; ¼ lb. 40c.

POP CORN

¼ lb. to 100 ft. of drill.

WHITE RICE—Local seed. Favorite white variety, wonderful popping qualities.

JAPANESE HULLESS—Heavy yielder, short, thick ears, slender white kernels. Has practically no hulls when popped.

BLACK BEAUTY—Round dark blue kernels, a favorite. Early.

SOUTH AMERICAN or T. N. T.—Large eared yellow sort, enormous when popped, flavor excellent.

Buy pop corn for popping as well as for planting. Prices on Pop Corn—Postpaid: ½ lb. 15c; 1 lb. 20c. Not postpaid: ½ lb. 10c; 1 lb. 15c; 5 lbs. or more @ 13c per lb.

Lettuce

1 oz. will sow 150 ft. of drill. Lettuce belongs in every garden, whether large or small. Grows to perfection in a rich moist soil. For earliest lettuce, plant the loose leaf varieties. Head lettuce seed should be planted early so it will make heads before hot weather. Thin out to at least 10 in. apart in the row. To be good, lettuce must grow fast, and if too thickly planted its growth is checked and the lettuce is tough and bitter. Sow fall crop in July or early August.

HEADING VARIETIES

NEW YORK or WONDERFUL—A large solid hearted variety, crisp and tender, and of good quality. Heat resistant, doing well in mid-summer. Dark green heads, with slightly curled outer leaves. Center nicely blanched.

ICEBERG—Heads are of medium size, firm and hard, exceedingly crisp, sweet and tender. Outer leaves having a slight tinge of brown on the edge. It can withstand quite a lot of dry weather.

MAY KING—An extra early variety with a creamy heart.

Postpaid prices on Head Lettuce: Pkt. 5c; oz. 15c; ¼ lb. 40c; 1 lb. \$1.25.

LOOSE LEAF VARIETIES

BLACK SEEDED SIMPSON—For spring and early summer culture. Leaves dark green, crisp, and tender.

GRAND RAPIDS—Early, hardy, disease resistant. Plants large, wide, light green curly leaves, very tender and sweet. Good for forcing.

EARLY PRIZEHEAD—An early home garden variety with frilled leaves of medium green color, tinged with red.

PARIS WHITE COS or ROMAINE—Large size plant with medium green leaves, folding into loose heads. The entire plant is tender and palatable. Heads round and erect.

Postpaid prices on above varieties of Leaf Lettuce: Pkt. 5c; oz. 10c; ¼ lb. 30c; 1 lb. \$1.00.

Musk Melons or Cantaloupe

1 oz. to 50 hills; 2 to 3 lbs. per acre. The varieties of Musk Melon and Cantaloupe we carry are something to be proud of. We have been careful in selecting the sweetest, most productive melons, noted for their earliness in maturity. For earlier planting use Hotkaps to protect against frost and insects.

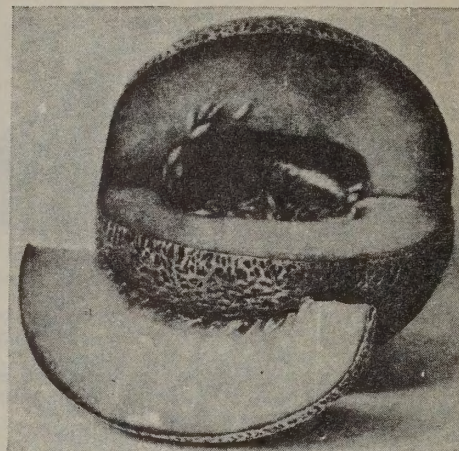

HALES BEST, No. 36—An outstanding early oval fruit, heavily netted, flesh thick, salmon orange in color, sweet and fine flavor.

HALES BEST, No. 936—The earliest of all Hales Best strains, medium vines, vigorous and healthy. Melons are oval in shape, well netted, flesh pink, sweet and thick. A heavy yielder.

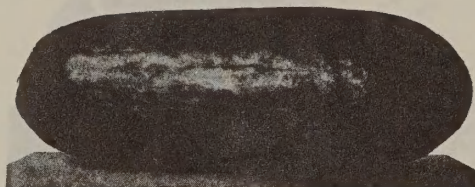

HONEY ROCK—The popular Big Horn Basin melon. Medium early, extremely productive. Salmon fleshed, deliciously sweet, medium size, small seed cavity, gray green in color.

GLOBE OF GOLD—A new development of the Honey Dew type producing more uniform melons from ten days to two weeks earlier. Skin golden in appearance, slightly netted, and an orange colored flesh. Do best in arid conditions.

Postpaid prices on varieties above: Pkt. 5c; oz. 15c; ¼ lb. 40c; 1 lb. \$1.10.

WATER MELONS

Kleckley Sweet

1 oz. of seed to 30 hills or 2 lbs. to the acre. We have dropped some of the old varieties and added some new ones, as we have found that there has been a great improvement in quality, earliness, and productiveness. Keep water melon patches or fields free from weeds, as some seem to have effect on the flavor of the melons.

PEERLESS or ICE CREAM—An early almost round melon, thin medium green rind, bright red flesh, sweet and juicy.

KLECKLEY SWEET—IMPROVED—Popular home garden sort. Dark green, oblong in shape. The flesh is bright red, crisp and very sweet. Less seeds than most any other variety. Seeds are white.

EARLY KANSAS—One of the best tasting early melons, of recent introduction. The fruits are large, dark green skin with lighter green striping. Bright red flesh and fine quality. If you have no irrigation, this will be your best bet.

GOLDEN HONEY—The best and earliest of the yellow fleshed melons. Rich, sweet, distinct flavor preferred by many.

Postpaid prices on above varieties of Water Melons: Pkt. 5c; oz. 10c; ¼ lb. 25c; 1 lb. 80c.

STRIPED KLONDIKE—Rind light green with irregular dark green stripes. Medium size. Flesh deepest red, sweet and crisp. Seeds small.

KLONDIKE EARLY BLACK SEEDED—Known as University strain. Fruits medium sized, oblong in shape. Deep red flesh, very sweet.

Postpaid prices on Klondike Melons: Pkt. 5c; oz. 15c; ¼ lb. 40c; 1 lb. \$1.25.

KING and QUEEN or WINTER WATERMELON—A melon that is adapted to all sections. Small, sweet, and delicious. Fruits harvested from field before frost and stored in a cool cellar will keep until Christmas. Small shiny black seed, flesh pink and solid. Be sure to try this little wonder melon. Postpaid prices: Pkt. 5c; oz. 15c; ¼ lb. 35c; 1 lb. \$1.10.

CITRON—Fruits used exclusively for pickling or preserving. Will keep for some time after picking. Pkt. 5c; oz. 10c; ¼ lb. 35c.

Get Melons Early By Using Hotkaps!

PEPPERS

1 oz. will produce about 1,000 plants. Peppers are grown and transplanted like tomatoes, but the plants can be placed closer together. A dozen healthy pepper plants will supply the average family. We have made it a point to select and carry only varieties noted for their earliness and quality. We can supply pepper plants of all varieties we list.

CALIFORNIA WONDER—Medium early variety. Plants vigorous, upright and prolific. Fruits are chunky, 4 lobed, smooth and attractive. Deep green changing to a bright crimson; flesh thicker than other varieties mild and sweet. Postpaid prices: Pkt. 10c; ½ oz. 30c; 1 oz. 50c.

RUBY KING—A week earlier than California Wonder, fruits are a little longer. Bright red. Used both for pickles and slicing. Excellent flavor, pleasant and mild. Postpaid prices: Pkt. 10c; ½ oz. 20c; 1 oz. 30c.

BURRELL'S ROCKY FORD—The merits of this pepper are its earliness, large size, and thick walls. A prolific bearer, large leaves which protect peppers from sun scald. An "All American Selection" recommended for home and market garden. Postpaid prices: Pkt. 10c; ½ oz. 35c; 1 oz. 60c.

PARSLEY

1 oz. to 100 ft. of drill

MOSS CURLED—Beautiful type used as a garnish. Postpaid prices: Pkt. 5c; oz. 10c; ¼ lb. 30c.

HAMBURG or TURNIP ROOTED—Grown mainly for its roots which are used for flavoring. Postpaid prices: Pkt. 5c; oz. 10c.

PARSNIPS

HOLLOW CROWN—The best variety in cultivation. Roots thick and medium long. Postpaid prices: Pkt. 5c; oz. 10c; ¼ lb. 30c; 1 lb. 90c.

ONIONS

1 oz. to 150 ft. or 5 lbs. to the acre. Whether you want a little seed to grow just a few onions in your back yard garden, or several pounds to raise to sell in local market, you will find the varieties listed below are all good, reliable, and true to type. As early as soil can be worked in spring, sow the seeds thinly in drills one foot apart, and cover lightly, later thinning out to about 1 in. apart in the row. Soil must be well fertilized and made friable with frequent cultivation. Water frequently in hot weather. Use Semesan on your onion seed to prevent disease and increase the crop. See prices under "Seed Disinfectants."

On account of a very short crop, our prices on onion seed are guaranteed only for stock on hand or contracted.

"SWEET SPANISH ONIONS LEAD THE MARKET"—A large sweet onion introduced into this country from Spain, changing the entire onion market. Has no bite nor objectionable strength, being mild and sweet-flavored. Firm meat of tender texture. Good keepers.

WHITE SWEET SPANISH—Medium heavy yielder, more resistant to thrips than most white varieties.

Postpaid prices: Pkt. 5c; oz. 50c; ¼ lb. \$1.75; 1 lb. \$5.00.

Not Postpaid: 1 lb. \$4.90; 5 lbs. or more @ \$4.80 per lb.

YELLOW SWEET SPANISH—Large, globe shaped, light brown onion. Most popular market onion. Postpaid prices: Pkt. 5c; oz. 50c; ¼ lb. \$1.75; 1 lb. \$5.00. Not Postpaid: 1 lb. \$4.90; 5 lbs. or more @ \$4.80 per lb.

YELLOW GLOBE DANVERS—An outstanding variety. Bulbs medium size. Clear yellow skin. Flesh white with yellow tone. For summer use or winter keeping. Postpaid prices: Pkt. 5c; oz. 40c; ¼ lb. \$1.40; 1 lb. \$4.90. Not Postpaid: 1 lb. \$4.80; 5 lbs. or more @ \$4.70 per lb.

MOUNTAIN DANVERS—An early strain of Yellow Globe, not quite as large as regular Danvers, slightly more flat. The skin is a beautiful dark yellow, thick and heavy, which makes it a good keeper. Postpaid prices: Pkt. 5c; oz. 50c; ¼ lb. \$1.75; 1 lb. \$5.00. Not Postpaid: 1 lb. \$4.90; 5 lbs. or more at \$4.80 per lb.

SOUTHPORT WHITE GLOBE—Beautiful silvery white, perfectly globe shaped, large size. Flesh firm, solid, and of pleasant flavor. Small neck. Postpaid prices: Pkt. 5c; oz. 50c; ¼ lb. \$1.75; 1 lb. \$5.00. Not Postpaid: 1 lb. \$4.90; 5 lbs. or more @ \$4.80 per lb.

SOUTHPORT RED GLOBE—We believe this is the very best red onion. Heavy cropper and excellent keeper. Postpaid prices: Pkt. 5c; oz. 20c; ¼ lb. 60c; 1 lb. \$2.00. Not Postpaid: 1 lb. \$1.90; 5 lbs. or more @ \$1.85 per lb.

BARLETTA—The best small white onion for pickling Postpaid prices: Pkt. 5c; 1 oz. 50c; ¼ lb. \$1.75.

TRY THIS FOR A TASTY DISH

CHOP SUEY

- 1 cups celery
- 1 large onions
- 1 lb. pork steak

Cook sliced celery in small amount of salted water. Fry steak and cut into small pieces. Fry sliced onions to a golden brown. Place all together in skillet and thicken slightly with corn starch. Serve with rice. Left over fowl may be used this way in place of steak.

PUMPKINS

1 oz. of seed will plant 20 hills. Pumpkins are typically American, and Pumpkin pie is one of our truly American dishes.

SUGAR or PIE PUMPKIN—Small round orange skinned, slightly ribbed. Finest quality for pies. Postpaid prices: Pkt. 5c; 1 oz. 10c; ¼ lb. 25c; 1 lb. 80c.

DICKINSON—New large variety much sweeter and richer than older varieties of field pumpkins. Can be used for table or stock feeding. Postpaid prices: Pkt. 5c; 1 oz. 10c; ¼ lb. 30c; 1 lb. 90c.

ONION SETS and PLANTS

Growing onions from sets or plants saves a lot of labor. They are quicker growing and ready for use weeks in advance of those grown from seed. Best for home and small gardens. Full stock of yellow, red, and white onion sets; also Yellow Bermuda, Crystal White Wax, and Sweet Spanish Onion plants. Ask for prices.

PEAS

For sweetest Peas grow your own. 1 lb. to 100 ft. of drill. Peas of highest quality can be raised in this climate, and the varieties we have to offer you in early, medium, and late peas are unsurpassed for quality. Garden Peas are best cooked and served as soon as picked, or at least within a few hours after they are gathered. For a continuous supply, plant every 10 days or two weeks.

ALASKA—Very early, smooth sweet peas, which withstand the cold weather better than the wrinkled varieties. Early market.

AMERICAN WONDER—Earliest of the dwarf wrinkled types. Vines about a foot high, very productive. Pods well filled with sweet tasty peas.

LITTLE MARVEL—The most prolific of the early garden peas. Small podded, high in quality, with lots of pods on the vines. Our best seller.

LAXTON'S PROGRESS—The earliest large podded, dwarf sweet pea. Generally considered the best in its class. The seeds are large with 7 to 9 peas in every pod.

DWARF TELEPHONE—Main crop. About 2 ft. tall. Large pods containing 8 to 10 large dark green peas of extra fine quality and sweet flavor.

STRATAGEM—Medium height vines. Pods large, and well filled, coming into maturity at mid-season. Big seller.

WYOMING WONDER—A new pea that we have added to our popular list this season. Wilt-resistant, mammoth podded pea. Its pods are 5 to 6 in. long, very dark green, filled with large luscious peas. Vines 24 to 28 in. tall. Exceptional in quality.

THOS. LAXTON—An excellent early wrinkled variety, producing an abundance of pods filled with medium sized peas. Height 24 in.

EVERBEARING—Long bearing variety for home and market garden. Vines grow about 2 feet in height. Largest selling main crop pea.

Postpaid prices on all varieties of Peas: ½ lb. 20c; 1 lb. 30c; Not Postpaid: ½ lb. 15c; 1 lb. 25c; 5 lbs. or more @ 12¢ lb. Ask for prices on large quantities.

Be sure of a good Pea Crop. Treat seed with Nitragin.

White Icicle

SALSIFY

OYSTER PLANT—1 oz. to 75 ft. of drill. Grown and handled like parsnips. Oyster flavor. If left in the ground over winter, the flavor is much improved as a Spring Vegetable. Postpaid prices: Pkt. 5c; oz. 20c; ¼ lb. 60c.

SAGE

Perennial plants with broad leaves, used green minced or dry for seasonings. Postpaid prices: Pkt. 10c; ½ oz. 25c; 1 oz. 40c.

SQUASH

1 oz. will plant 50 hills. Culture similar to that of pumpkins and melons.

WINTER VARIETIES

CLOUD PEAK—Large yellow odd shaped squash of highest quality. Thick meat of fine texture and delicious flavor. If you once plant this squash, you will always plant it. Postpaid prices: Pkt. 5c; oz. 20c; ¼ lb. 70c.

BUTTERCUP—Weighing from 3 to 5 lbs., makes it just right for the average family. Odd shaped like the Cloud Peak, but with green skin, rich orange flesh. Postpaid prices: Pkt. 5c; oz. 20c; ¼ lb. 70c.

TRUE GREEN HUBBARD—The old standard which has never lost its popularity. Good keeper. Postpaid prices: Pkt. 5c; oz. 12c; ¼ lb. 35c; 1 lb. 90c.

CHICAGO WARTY HUBBARD—Hubbard shape with very dark green and heavily warted skin. Main storage type. Postpaid prices: Pkt. 5c; oz. 12c; ¼ lb. 35c; 1 lb. 90c.

GOLDEN HUBBARD—Similar to green Hubbard, but smaller and of a rich golden brown color. A little earlier and extremely popular. Postpaid prices: Pkt. 5c; oz. 12c; ¼ lb. 35c; 1 lb. 90c.

DELICIOUS—Well named medium size squash. Thick flesh of good quality. Nice for baking. Postpaid prices: Pkt. 5c; oz. 12c; ¼ lb. 35c; 1 lb. 90c.

TABLE QUEEN—Shaped like an acorn, smooth and very dark green in color with deep ridges. Flesh light yellow, and when baked (usually whole) and eaten from the shell it is a luscious treat. Postpaid prices: Pkt. 5c; oz. 12c; ¼ lb. 35c; 1 lb. \$1.00.

BANANA—Large in size, generally over 2 feet long. It keeps equal to a Hubbard, more prolific and earlier. Skin is blue gray in color and not as hard as the Hubbard. Cooks dry and mealy. Postpaid prices: Pkt. 5c; oz. 12c; ¼ lb. 35c; 1 lb. \$1.00.

SUMMER VARIETIES

SUMMER CROOKNECK—An early variety that needs no description. Postpaid prices: Pkt. 5c; oz. 12c; ¼ lb. 35c; 1 lb. \$1.00.

WHITE SCALLOP—Flat white squash with a scalloped edge. Postpaid prices: Pkt. 5c; oz. 12c; ¼ lb. 35c; 1 lb. \$1.00.

ITALIAN COCOZELLE—Delicious summer variety which should be eaten when young. A few hills will suffice to keep the family well supplied all summer. Dark green skin with a yellow stripe as it reaches maturity. Excellent sliced, and fried with eggs and cracker crumbs. Postpaid prices: Pkt. 5c; 1 oz. 12c; ¼ lb. 35c; 1 lb. \$1.00.

RADISHES

1 oz. will plant 100 ft. of drill

SAXA—One of the earliest and finest round, bright scarlet, short topped radishes.

EARLY SCARLET GLOBE—The best general purpose radish slightly larger than the Saxa.

SPARKLER—Rich scarlet color, with a white tip. Roots solid, crisp, and sweet.

FRENCH BREAKFAST—Oblong roots, scarlet color, white tips.

CRIMSON GIANT—Matures early and grows to a large size without becoming hollow or woody. Round and red.

WHITE ICICLE—Long white radish, good for all purposes.

WHITE TURNIP—The finest white round radish. Early.

Postpaid prices on all varieties of radishes: Pkt. 5c; oz. 10c; ¼ lb. 25c; 1 lb. 80c. Not postpaid: Per lb. 75c; 5 lbs. or more @ 70c per lb.

SPINACH

1 oz. will plant 100 ft. of drill. Grow and eat more Spinach, it tops the list of health and body building vegetables. Easy to grow, and can be planted very early in the spring as frost will not affect it.

BLOOMSDALE SAVOY—Very early, leaves are thick, wrinkled, and crumpled.

KING OF DENMARK—Between smooth and blistered type leaves, broad round and very dark green. Vigorous of habit and slow to go to seed. Stands hot weather better than other varieties.

Postpaid prices either variety: Pkt. 5c; oz. 10c; ¼ lb. 35c; 1 lb. \$1.10. Not postpaid: 1 lb. \$1.05; 5 lbs. or more @ \$1.00 per lb.

NEW ZEALAND—Warm season type, entirely different from other varieties of spinach. Slow growing, the large spreading plants have small thick deep green leaves, which can be picked repeatedly throughout the summer season. Postpaid prices: Pkt. 5c; oz. 10c; ¼ lb. 25c; 1 lb. 60c.

CLOUD PEAK

TOMATOES

1 oz. of seed will produce about 2000 plants. An item of special interest to us is our tomato seed. The best is none too good. Our supply comes from a grower who makes the growing of tomato seeds his business. You won't find a selection more adapted to this altitude than our varieties for earliness, hardiness, or any that are truer to name and description.

BREAK O' DAY

EARLIANA—The standard first early sort. Specially selected strain.

BONNY BEST—Second to EARLIANA as a general purpose tomato, nearly as early as Earliana. Fruits uniform and much smoother.

BREAK O' DAY—New development in tomatoes by the U. S. Dept. of Agriculture. Early as the earliest. Does not crack around stem and the seed cavities are small.

JOHN BAER—Early maturing, general purpose variety which yields a heavy crop of large uniform attractive fruits.

JUNE PINK—An early sort, producing fruits in clusters. Medium size. Maturing with the very earliest varieties, and has a fine flavor.

Postpaid prices on above tomatoes: Pkt. 5c; ½ oz. 20c; 1 oz. 35c; ¼ lb. \$1.00.

GOLDEN QUEEN—Large, smooth, bright yellow, main crop tomato. Has less acid than red sorts. Postpaid prices: Pkt. 5c; ½ oz. 25c; 1 oz. 40c.

YELLOW PEAR—Small pear shaped fruits used for preserving. Postpaid prices: Pkt. 5c; ½ oz. 25c; 1 oz. 40c.

GROUND CHERRY or HUSK—Bright yellow fruit, about the size of a cherry enclosed in a thin, papery husk. Used for pies and preserves. Postpaid prices: Pkt. 5c; ½ oz. 25c; 1 oz. 40c.

APPLE AND TOMATO PRESERVES

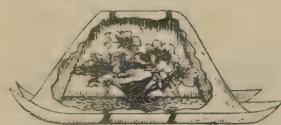

Try making Tomato preserves by using half apple and half tomatoes, either yellow or red. Much superior to straight tomato.

Lovely Flowers from Seeds of Merit

Year after year this little space has served as an introduction to the "Garden Beautiful." Through flower Mrs. Watenpugh and Lulu Belle wish to extend their greetings to you all. It is with special pleasure that we have carefully prepared the following pages so you may plan and plant a flower garden for beauty, health, and recreation. Most of the new improved flowers and All American Selections are here to bring new glory to your garden in the flowers you have always loved. We have selected the finest strains of each individual variety best suited to our climate, and offer them at prices that are very reasonable.

"Yes, in the poor man's garden grow
Far more than herbs and flowers—
Kind thoughts, contentment, peace of mind,
And joy for weary hours."

—Mary Howitt.

All Flower Seed Prices Postpaid. Six 5c Packets for 25c; Six 10c Packets for 50c

Sunshine

- ASTERS**—(A) We carry only wilt resistant strains.
Queen of Market—Early blooming about 20 in. tall. Finest Mix. Pkt. 10c; ¼ oz. 30c.

Canna Prices: Each 15c; ■ for 25c.

TUBEROSES

Their delightful fragrance permeates great distances. For earlier blooming start in pots and set out in ~~open~~ weather.

Each 10c; ■ for 25c.

NURSERY DEPARTMENT

Judging by the response we have had since we opened up our Nursery Department, this is filling a real community need. We are in a position to offer even better service this year than we have ever been able to do before. We are very pleased to announce that George Urbatchka is returning to take charge of this department. George worked for us before, and is returning after being in charge of the greenhouse and grounds on a private estate.

All items that we offer for sale are either grown here at Fairacres, or obtained from reliable sources, and you can depend upon the quality and adaptability to Wyoming and Montana conditions. Space will not permit us to make a full listing of all the items we can furnish. If you do not find what you want in the catalog, ask us about it or visit our nursery at Fairacres and make your own selection.

GUARANTEE

All items are guaranteed to be alive and in first class condition, capable of growing when they leave our hands. If, when received by the customer, they are not entirely satisfactory, they may be returned at once at our expense and we will refund the money, or give you other stock of equal value. We further guarantee that if any dormant stock does not grow if properly planted and cared for we will refund it at one-half list price the following season, provided we are notified in writing not later than August 1st. The same items or other nursery stock of equal value may be re-ordered. We want only well-satisfied customers, otherwise we would not make this liberal guarantee.

DELIVERY

All stock, except balled and burlapped evergreens and any items over 7 ft. long, delivered free by parcel post to points within 300 miles of Sheridan, Wyo. Balled and burlapped evergreens will be delivered free in Sheridan and its suburban areas; to other points, by the cheapest fast delivery collect.

DISCOUNT

A discount of 5% will be made on orders totaling \$10.00 or more, exclusive of evergreens.

SHADE TREES

ASH—The best hardwood tree for our territory. Long lived, shapely and very free of disease and insects.

American White Ash—3 to 4 ft. size, each 90c, 10 for \$8.00; 6 to 8 ft. size, each \$1.50.

Green Ash—3 to 4 ft. size, each 75c.

ELM—A very rapid growing tree suitable for street or lawn planting.

American White Elm—4 to 5 ft. size, 55c each; 6 to 8 ft. size, \$1.00 each.

Moline Elm—6 to 8 ft. size, \$1.40 each.

Chinese Elm—Drought-resistant, hardy tree. May be trimmed for specimen trees or can be allowed to branch close to the ground for wind break purposes. We have both types, 5 to 6 ft. size, 75c each; 6 to 8 ft. size, 90c each.

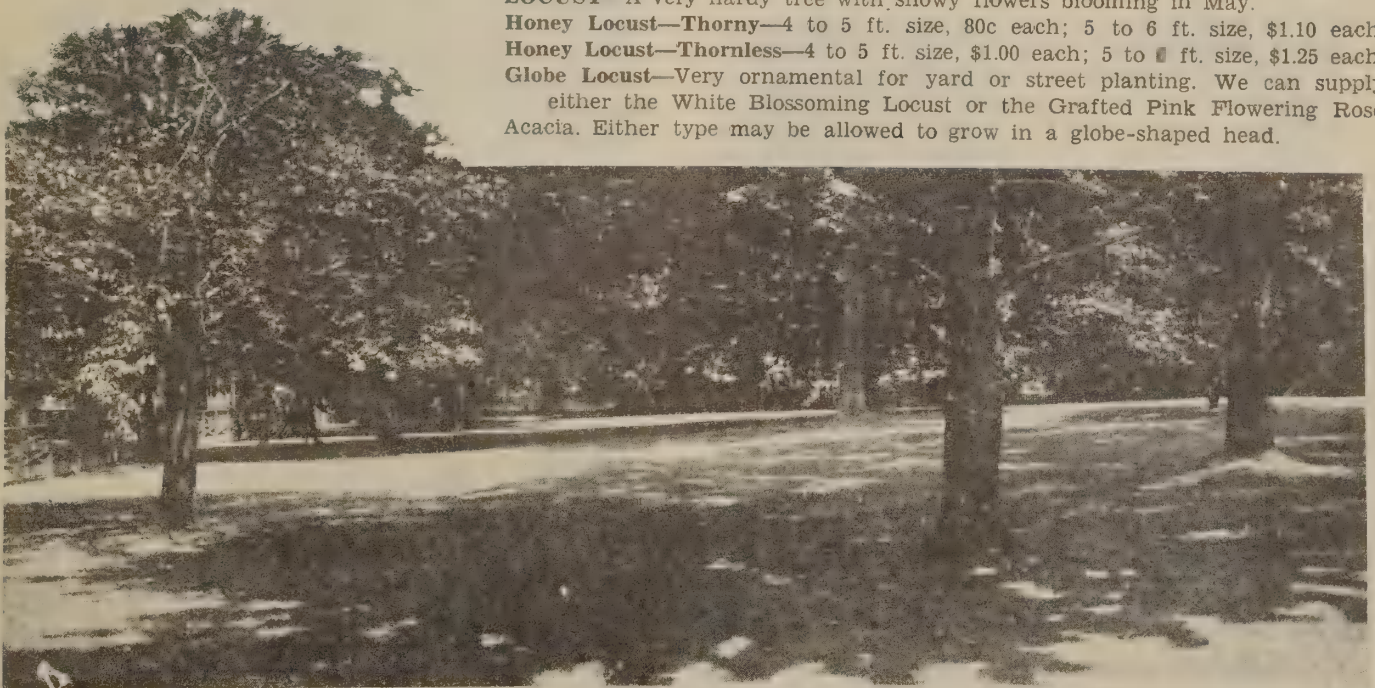

LINDEN—A hardy, well shaped tree. Fairly rapid grower. This should be one of our most widely grown trees, as it is very handsome in appearance, 5 to 6 ft. size, \$1.25 each; 6 to 8 ft. size, \$1.50 each.

LOCUST—A very hardy tree with showy flowers blooming in May.

Honey Locust—Thorny—4 to 5 ft. size, 80c each; 5 to 6 ft. size, \$1.10 each.

Honey Locust—Thornless—4 to 5 ft. size, \$1.00 each; 5 to 8 ft. size, \$1.25 each.

Globe Locust—Very ornamental for yard or street planting. We can supply either the White Blossoming Locust or the Grafted Pink Flowering Rose Acacia. Either type may be allowed to grow in a globe-shaped head.

MAPLES—A very rapid grower fine for park or street planting.
Norway Maple—5 to 8 ft. size, \$1.10 each; 10 to 12 ft. size, \$1.40 each.
Silver Maple—4 to 5 ft. size, 75c each; 8 to 10 ft. size, \$1.10 each.

MOUNTAIN ASH—One of our most ornamental trees with beautiful clusters of white flowers in the spring, and heavy bunches of red berries throughout the fall. 6 to 8 ft. size, \$1.75 each.

POPLARS—Rapid growing trees of upright habit, very attractive.

Bolleana—Hardest of the pyramidal poplars. 5 to 8 ft. size, \$1.00 each.

Lombardy—Chimney shaped. 4 to 5 ft. size, 35c each; 8 to 10 ft. size, 50c each.

Russian Olive—A splendid tree for wind break and hedge as well as specimen planting. Vigorous grower and drought-resistant. 12 to 18 inch seedlings 10c each, 10 for 75c; 2 to 4 ft. size, 45c each, 10 for \$3.75; 6 to 8 ft. size, 60c each, 10 for \$4.75.

WILLOW—An all around tree suitable for hedge, wind break, and specimen planting. We have the following in different sizes. Ask for prices.

Pussy Willow.

Niobe (Golden Weeping).

Italian Golden.

SHRUBS

The shrubs we list are perfectly hardy for our climate. See us for landscaping and the planting of your grounds.

BUDDLEIA or BUTTERFLY BUSH—A very free blooming shrub, which grows to a height of four to five feet. Each branch is tipped with a long spike of purple flowers. Price, each 50c.

COTONEASTER (Peking)—A hardy shrub with lustrous dark green leaves. Does well in sun or shade. 12 to 24 in., 40c; 2½ ft. to 4 ft., each 70c.

DOGWOOD—Red or Coral—(Alba Sibirica)—2 to 3 ft. size, each 50c.

Golden Twig—A yellow bark variety particularly effective in combination with the Coral Dogwood in group planting. Price: Each, 2 to 11 ft. size, 60c.

ELDER—Fern Leaf or American Cut Leaf—Dark green, fern like, leaves finely cut. Grows to a height of about four to five feet, producing sprays of white flowers followed by clusters of black berries much relished by birds. Price, each 75c.

FLOWERING CRABS—One of the prettiest of all flowering shrubs. The entire shrub or small tree is often entirely covered with its own mass of bloom.

FLOWERING CRABS

Ionesis or Prairie Crab—

Perfectly hardy with single pink, fragrant flowers. 18 to 24 inch, each 40c; 3 to 4 ft., each 95c.

Hopa — Red Flowered —

Grows to a height of 20 feet. The rose colored flowers are followed by red fruits which hang on until autumn. 2 to 3 ft. size, each 50c; 3 to 4 ft., each 75c; 4 to 5 ft., \$1.00.

FLOWERING PLUMS—

Very outstanding ornamental shrubs for specimen planting.

Prunus Cistena—A very hardy variety with large purple-red leaves and reddish-brown branches. Prices each: 18 to 24 in., 60c; 2 to 4 ft. \$1.00; 5 ft. size \$1.25

Prunus Triloba—Lovely

May blooming shrub with double pink blossoms opening before the leaves appear. Price: 18 to 24 in., 60c; 2 to 4 ft., each \$1.00.

FLOWERING ALMOND

—A dwarf shrub bearing lovely pink blossoms profusely in May. Requires protection in our climate. Price: 2 to 3 ft., 60c.

FLOWERING QUINCE

(Cydonia Japonica)—Lovely scarlet flowers appear before the leaves. Price: 18 to 24 in., 35c; 2 to 3 ft. 50c.

HONEYSUCKLE—Very

popular for single plantings as well as for hedges. Pink or red flowered. Price: 18 to 24 in., 20c; 3 to 4 ft. 60c.

LILACS—These come in a wide variety of shades and types.

We have the following in stock and can secure any other shade you may wish.

Common Purple—The old-fashioned garden variety with single purplish-blue flowers. Price: 2 to 3 ft., each 50c.

Charles X—Single purplish-red flowers; free flowering and strong growing. Price: 2 to 3 ft. \$1.00; 3 to 4 ft. \$1.25.

Rubra or Marley—Single, rosy red tinged with blue. Price: 2 to 3 ft., each \$1.00.

Rothomagensis or Chinese—Has slender, often arching branches, carrying broad bunches of purple-lilac red flowers. Price: 12 to 18 in., each 50c; 2 to 3 ft., 75c; 3 to 4 ft., 90c.

Villosa—A variety which blooms considerably later than other lilacs. Has large attractive leaves and pale pink flowers. Price: 2 to 3 ft. size, each 90c.

MOCK ORANGE (Philadelphus Virginal)—A very beautiful flowering shrub with snow-white blossoms resembling orange blossoms. Fragrant semi-double flowers produce freely throughout the summer. Price: 2 to 3 ft., each 60c; 4 to 5 ft., \$1.00.

MOCK ORANGE

SHRUBS (Cont.)

ROSE ACACIA—Robinia Hispida—6 to 8 ft. A shrubby Locust with attractive foliage and a profusion of rosy-pink flowers, followed by pods of seed. Price: 5 to 8 ft., each \$2.15.

SPIREA—One of the most popular shrubs.

Spirea Arguta, or Snow Garland—Blossoms appear early before the leaves come out. Minute pure white flowers. Price: 2 to 3 ft., each 30c.

Spirea Froebeli—Rosy pink flowers come in large flat heads. Price: 2 to 3 ft. size, each 30c.

Spirea Van Houtte or Bridal Wreath—Most popular of all Spirea. Prices: 18 to 24 in., each 15c, 10 for \$1.25; 3 to 4 ft., 30c, 10 for \$2.50; 3 to 4 ft., 50c, 10 for \$4.20.

SUMAC—Entirely different from any other shrub and very attractive.

Fern or Cut Leaf—3 to 4 ft., 65c.

Staghorn—2 to 3 ft., 30c; 4 to 6 ft., 65c.

SYMPHORICARPUS or Snowberry

Coral Berry (S. Vulgaris)—Pink flowers followed by distinctive red berries which remain on the bush all winter.

White Snowberry (S. Racemosus)—White blossoms and snow white berries.

Price for either variety: 18 to 24 in. size, each 40c; 2 to 3 ft., 50c.

TAMARIX—Graceful shrub with needle-like foliage and feathery flowers.

T. Amuriensis—Pink flowered in August and September. Price: 2 to 3 ft., each 40c; 4 to 5 ft., 60c.

T. Hispida—Bright pink flowers that bloom in July. Price: 2 to 3 ft. size, each 40c; 4 to 5 ft., 65c.

VIRBURNUM—A family of shrubbers that is widely grown for ornamental purposes.

V. Opulus Sterilis—This is the common old-fashioned Snowball. Price: 2 to 3 ft., each 65c.

V. Opulus, or High Bush Cranberry—Vigorous growing shrub with clusters of white flowers followed by scarlet fruit clusters remaining on the bush all through the winter. Price: 12 to 18 in. size, each 45c; 18 to 24 in. size, each 60c.

V. Lantana or Wayfaring Tree—Bears clusters of white flowers and berries which change from red to black. Stands considerable drought. Price: 18 to 24 in. size, each 50c.

HEDGING

We carry a full line of hedging stock in several different varieties suitable for various purposes.

BARBERRY—

Berberis Trunbergi (Japanese)—Hardy low growing hedge. Foliage turning brilliant red in fall. Price: 18 to 24 in., heavy stock, 25c; 10 for \$2.10.

Berberis Mentorensis—Patented variety, more upright growing, heavy dark green foliage. Price: 15 to 18 in., 5 for \$1.50.

Berberis Thunbergi erecta—Truehedge Columnberry—Another patented variety. Does not need pruning. Most dense, upright, and larger foliated than original Thunbergi. Price: 15 to 18 in., each 35c; 5 for \$1.40.

CARAGANA—Siberian Pea Tree—Very hardy and attractive. Price: 12 to 18 in., each 10c; 10 for 75c; 4 ft. to 5 ft., each 25c, 10 for \$2.00.

Ask for prices on large quantities of hedging stock, also on hedging grades of Honeysuckle, Spirea Van Houtte, as well as Chinese Elm, and Russian Olive.

VINES

CLEMATIS—Hardy climbing vines that have beautiful blossoms, borne in profusion.

C. Jackmani—Large, single, velvety violet flowers. The most popular variety.

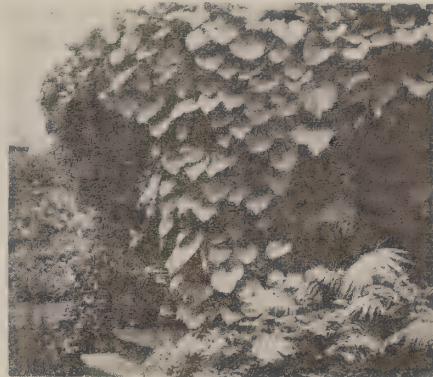

C. Henryi—White

C. Ramona—Light blue.

C. Mme. Edouard Andre—Purplish crimson. Same type as the Jackmani but different colors.

Prices on above: 3-in. pots, each 75c.

C. Paniculata (Sweet Autumn Clematis)—Entirely different from the above. Flowers are small, white, very fragrant in late summer and followed by feathery seeds. This is the hardest vine we know of. Price: 2-year medium stock, each 35c.

DUTCHMAN'S PIPE (Aristolochia)—A native vine, much liked on account of its heavy foliage and unique appearance.

A. Siphon—Very large, round leaves. Price: each 75c.

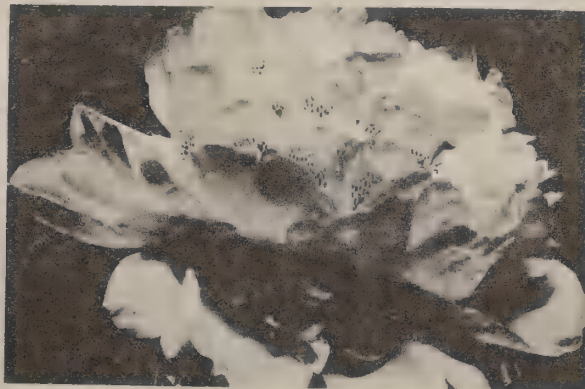

A. Tomentosum—Similar to the above, but very wooly, leaves smaller and less rounded. Price: each 35c.

Peonies - Iris - Phlox

Again we are stumped in making a full listing of the wide range of material that we can offer. While we can't list these here, we have prepared a complete list of this stock in mimeographed form, which we will be glad to send to all who ask for it. This list gives descriptions of all the different items that we have in this line of plants, and in addition, contains valuable hints on planting and care of different character of plants with instructions for control of insects, pests, diseases, etc. You can secure this free for the asking.

PEONIES—We have about 15 or 20 varieties for you to choose from, covering a wide range of new colors and types. Prices from 35c to 60c for 3 to 5 eye divisions.

IRIS—Over thirty varieties growing in our nursery. Splendid showy flowers that are a perfect delight. Most varieties are priced at 25c each.

PHLOX—Perennial Phlox come in a large variety of colors, heights, and varieties that bloom at different seasons. Perennial Phlox are becoming more popular each year, and we have about a dozen and a half of the very choicest kinds. Prices range from 25c to 50c each, or large clumps at 75c to \$1.00 each.

PERENNIALS

CHRYSANTHEMUMS—Here is another perennial that has increased in popularity a great deal with the introduction of new varieties that stand our climate better. We have half a dozen or more of the new showy "Cushion-mums."

PERENNIAL ASTERS (Michaelmas Daisies) — and **D. Eximia**—For rock gardens.

DELPHINIUM—English Hybrid and Wrexham strains, as well as the new gorgeous Pacific Hybrids.

Gypsophila or **Baby Breath**—Double and single.

LATHYRUS LATIFOLIUS—Perennial sweet peas.

LILLIES—Several different varieties.

POPPIES—Both the Oriental and the Iceland in several different shades.

PYRETHRUM or **PAINTED DAISY**—Lovely garden plants. Quite a number of different varieties.

SHASTA DAISY—Large and showy.

VERONICA—Very attractive.

Let us send you the full list of different material that we can furnish you. Just phone us or drop us a postal card.

FRUIT TREES

A considerable variety of fruit can be grown here. It is mighty nice to have a few trees for your own use and there is also considerable possibility for commercial production if proper care will be given to orchards and vines. Space will not permit us to give full variety descriptions of what we carry, but we are sure that you will find everything we offer, hardy and adaptable. We also have a number of larger size Apple Trees, ideal for yard planting or where quick bearing is especially desired.

APPLES—

Anoka—A large striped red summer apple.

Baldwin—A hardy, vigorous growing, late winter keeper.

Fameuse or **Snow Apple**—Late fall apple, very excellent quality.

McIntosh—Excellent winter apple of our section.

Wealthy—Hardy, free-growing, fall apple.

Yellow Transparent—Very early summer apple.

Yellow Delicious—Very fine eating apple.

CRAB APPLES—

Florence—Finest quality, red cheeked.

Red Siberian—Small, red jelly crab.

Whitney—Large, sweet, eating crab.

Prices on Apples and Crabs: 11-16 in. caliper, approx. 4½ ft. high, each \$1.00; 10 for \$8.00; 7-16 in. caliper, approx. 3½ ft. high, each 60c, 10 for \$4.75.

FRUIT TREES (Cont.)

CHERRIES—

Hansen's Bush—Very hardy, dwarf cherries, growing in shrub form. In addition to producing edible cherries, the bush is very ornamental. Price: 2 to 3 ft. size, each 85c.

Montmorency—Fine dark red, sour cherry. Very hardy. Price: 11-16 in. caliper, each \$1.10; 7-16 in. caliper, each 75c.

PLUMS—

Compass Cherry—A cross between the sand cherry and wild plum. Very hardy.

Hanska—A good, hardy, bright red plum. Fruit 1½ inches in diameter.

Opata—Produces plums about one inch in diameter. Dark purplish red.

Sapa—About 1 inch size fruit with shiny purplish skin.

Waneta—Largest of the hardy plums, producing about 2 inch fruit. Bright red in color.

Zumbra—Cross between pin-cherry, sweet cherry and sand cherry. Made by the Minnesota experiment station. Dwarf, bushy trees producing thick clusters of small dark, round, juicy plums.

Prices on Plums: 11-16 in. caliper, each 85c; 7-16 in. caliper, 55c.

APRICOTS—We offer two of Professor Hansen's South Dakota developed Manchurian varieties. They are drought resistant and extremely hardy. Price: 9-16 in. size, each \$1.00.

SMALL FRUITS

CURRENTS—Perfection—Price: Each 20c; 6 for \$1.00.

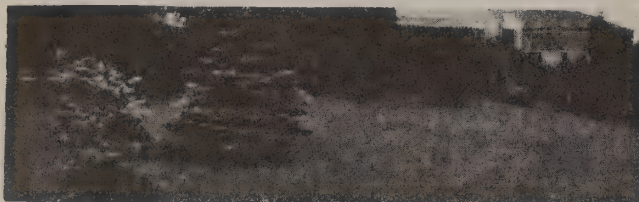

GOOSEBERRIES—Champion—Hardy, heavy yielding, less thorny than most varieties. Price: Each 20c; 6 for \$1.00.

GRAPES—Beta—Small black fruit, and one of the hardiest varieties. Excellent for covering arbors. Price: Each 15c; 6 for 75c.

RASPBERRIES—Latham—Fine, large fruited red raspberry.

St. Regis, Everbearing—Price: 6 for 40c; 25 for \$1.50.

LAWN GRASS SEED

Give the appearance of your lawn the attention it deserves. If building a new lawn, prepare your seed bed properly and sow good seed at the rate of one pound to 100 to 250 square feet. It adds to the permanence of your lawn to sprinkle in a little new seed each year.

We buy only the very highest quality seeds to sell for lawn use. In comparing the prices on your lawn seed with others, also compare the ingredients, the germination, and the purity. We know you will find the values we offer acceptable.

KENTUCKY BLUE GRASS—The standard lawn grass, sown either by itself or mixed with White Dutch Clover.

Also used for stock pasture and fine for this purpose. Extra fancy 23-lb. seed, not postpaid, 1 lb., 40c; 5 lbs. or more @ 35c per lb.

WHITE DUTCH CLOVER—Usually planted only in mixture with grass seeds. A large percentage of this seed is usually imported from Europe. This source of supply is cut off on account of the war, making extremely high prices this year. We have high quality domestic grown seed. Price, not postpaid: 1 lb., \$1.00; 5 lbs. or more @ 95c per lb.

SHADY LAWN GRASS MIXTURE—We have many calls for "shady lawn" grass, and have a special mixture for this purpose. Plant it under trees or other places where the sun does not have much chance to shine on it. Prices, not postpaid: 1 lb. 45c; 5 lbs. or more @ 40c per lb.

MOUNTAINEER LAWN MIXTURE—A mixture of grass seeds and White Clover that make an excellent lawn. Prices, not postpaid: 1 lb. 45c; 5 lbs. or more @ 40c per lb.

CREeping BENT GRASS—Bent grass is light green in color and by reason of its creeping habits forms a dense turf and tends to crowd out dandelions and weeds. Prices, not postpaid: 1 lb. \$1.20; 5 lbs. or more @ 1.15 per lb.

FIELD SEEDS

INTRODUCTION

CLOVER SEED

SWEETCLOVER—Sweet Clover is very valuable as a pasture and soil builder, and also for hay, if cut properly. We have both Yellow and White Blossom, and all the seed we offer is Wyoming and Montana grown, well re-cleaned, scarified and tested.

RED CLOVER—Valuable soil builder and forage crop, usually planted with timothy in the ration of one lb. Red Clover to two or three lbs. timothy. Red Clover prices are lower than average this year.

ALSIKE CLOVER—Grows best in wet places; mix with timothy in low spots where alfalfa kills out. Also very good in irrigated pastures as it is a rapid grower, highly nutritious and relished by all kinds of livestock. Another feature which makes it valuable for pasture use is that it will not bloat stock even when wet.

GRASSES

There is a general trend toward the planting of more permanent grasses for pasture under irrigation as well as the reseeded of dry lands which were once plowed. Grass seed germinates more slowly than many other seeds and it is, therefore, usually found much better to sow early in the spring when a constant supply of moisture is more apt to be available for the seeds and young plants than can be depended upon later in the spring. We make it a practice to buy for our trade only the highest quality of grass seed and you will find that this is the only kind it will pay you to buy. As a rule, better stands of grass are obtained by planting on fall plowing or where the seed bed is quite firm, rather than trying to sow on loose spring-plowed land. For pasture purposes, particularly under irri-

While the space in our catalog devoted to Field Seeds is comparatively small, this is really the most extensive department of our business. Due to the large production of Alfalfa Seed in our section of Wyoming and Montana, this item alone constitutes considerably more than half our entire volume of business in ordinary years. We are, I believe, the largest primary buyer in the State, and have large wholesale outlets in the East.

This year we are putting all our field seeds (except seed grain and coarse seeds) out in our New Branded Bag like the illustration on this page. Every lot of seed is tested for purity and germination before we offer it for sale. The Mountaineer Brand bag, with the test on the tag, and the tag sealed, is your assurance of getting seed adapted to your use and exactly as it is represented to be.

ALF ALFA SEED

With the largest local crop of Alfalfa Seed ever produced, we realize our local trade on this item will be small, as many of our regular customers have seed of their own. However, if you use your own seed, or buy from other farmers, let us urge you to have it cleaned first and then tested for purity and germination. Unfortunately some seed which seed houses refuse to buy because of impurities is offered for sale direct to farmers at nearly the price of good pure seed. For your own protection, insist on having purity and germination test on alfalfa seed which you plant.

GRIMM and COSSACK ALFALFA—We have kept for our retail requirements select lots of these varieties, and should be able to take care of normal requirements throughout the season. Both these varieties command a premium for seed purposes, especially Cossack.

LADAK—A new hardy drought and wilt resistant variety of alfalfa. Produces a fine leafy forage, and brings a nice premium for seed production.

gation, a mixture of various grasses and Alsike Clover will usually give better results than one kind of grass alone.

ORCHARD GRASS—Valuable in meadows or for pasture.

Stands a great deal of dry weather and is highly nutritious and palatable for stock. A very early starter in the spring. If you want to thicken up an alfalfa meadow, we believe Orchard Grass is the best bet. Much better than Timothy for mixing with alfalfa, as it will be ready to cut when first cutting alfalfa is. It grows quickly so that it makes tonnage with the second crop as well as the first.

TIMOTHY—A very hardy grass in general use for hay. Succeeds in some locations where alfalfa will not produce.

ENGLISH BLUE GRASS or MEADOW FESCUE—A rapid grower and highly desirable in pasture or meadow mixtures. Succeeds well even on rather poor soil and will stand considerable drought without killing out.

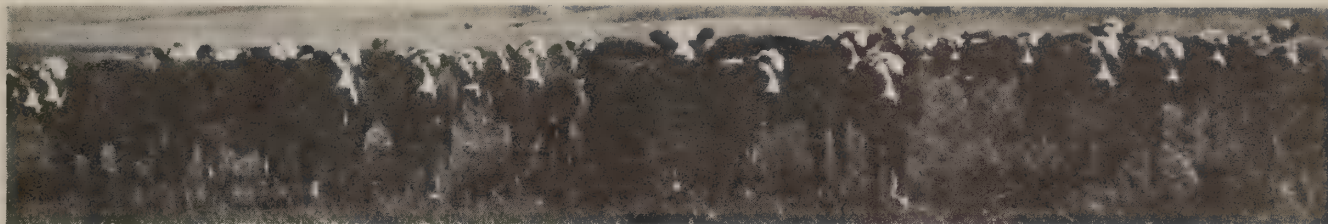

BROME GRASS—A fine grass crop for dry land and also does well under irrigation. Perfectly hardy and produces high quality forage.

CRESTED WHEAT GRASS—The use of this grass has increased by leaps and bounds in the past few years. It withstands more drought than any grass we know of; produces an abundance of highly nutritious pasture or for use in a meadow, produces hay that is much relished by livestock and "sticks to their ribs."

RED TOP—Suitable for soils too wet for other grasses.

MOUNTAINEER IRRIGATED PASTURE MIXTURE—Our own mixture, which meets the requirements for an all-around pasture in a highly satisfactory manner. Contains Brome Grass, Orchard Grass, Meadow Fescue, Timothy, Kentucky Blue Grass, Alsike Clover, and White Dutch Clover, making a carefully balanced pasture ration.

We can mix pasture grasses for you on any formula that you desire.

FORAGE CROPS

SUDAN GRASS—Unquestionably the leading one-year forage crop for our country. Drought resistant on dry land, but responds to irrigation with a tremendous growth. Relished by all stock and is highly nutritious. Should not be planted till danger of frost is past, and can usually be sown late the first of July and still make a crop. **Note:** Sudan grass has a heavier stock than permanent grasses or alfalfa, and requires longer time after cutting to properly cure. Do not spoil your crop by trying to put it up too soon.

MILLET—Millet is valuable as a catch crop for both hay and grain. It should not be seeded too early frost and cold weather will damage it badly.

SIBERIAN MILLET—A small seeded variety with round, reddish seeds. Very hardy and drought resistant. An excellent hay crop as well as a good seed producer.

HOG MILLET ■ **PROSO**—This is a large seeded type of millet with sprangled heads.

BLACK AMBER CANE—Produces an abundance of feed much relished by stock as it is very sweet. The stocks are quite heavy and hay must be shocked in the field and allowed to cure several days before stacking. Grasshoppers or crickets will not bother Cane, which makes it especially valuable when infestation of these insects is threatened.

DWARF ESSEX RAPE—One of the finest green feeds grown. For late summer and fall pasture sow 1½ to 2 lbs. of rape seed per acre in your grain just before you irrigate. It will grow in the stubble and make an abundance of feed for hogs, cattle or sheep.

SEED CORN

All our seed corn is Wyoming and Montana grown (except Hybrid, which is Minnesota grown). The varieties we offer are especially adapted to local conditions. Don't plant untested corn varieties that are not adapted to Wyoming and Montana condition.

COLORADO 13—A splendid yellow dent. This variety has certainly proved itself very valuable in the last few years. Much larger ear and deeper kernel than any of the varieties formerly used. We have seen fields of this corn that made 60 bushels to the acre. This variety has not proven as successful on dry land as some of the others, but we do not believe it can be beat under irrigation.

SQUARE DEAL YELLOW DENT—Very early with small ears and cob, but a good yielder.

PIONEER WHITE DENT—The best white corn for this section.

FALCONER—Semi-yellow dent, early, hardy, and prolific.

GEHU—Yellow flint, very early, high feeding value, and will make corn where others fail.

NORTHWESTERN DENT—Red corn producing heavily both grain and fodder. Much liked for silage.

KINGSCROST HYBRID—Last year we carried for the first time Hybrid Seed Corn, and quite a number of growers whom we contacted were highly pleased with the results they obtained with it. We are offering this year the same Kings-croft Corn from the same source that we obtained our stock last year. We do not have exact information as to comparative yields with other corn here, but carefully checked tests in Montana indicate that Kingscrost 90-Day Hybrid Corn has outyielded farmers own home-grown stock by as much as 12½ bushels per acre. Do not save seed from Hybrid corn. It will not produce a second crop true to the variety planted.

SEED GRAIN

Supplies of seed grain, particularly oats and barley, are not as plentiful this year as they ordinarily are. While we do not have full stocks arranged for at the time this is written, you can be sure that we will be able to offer you the best obtainable in all kinds of seed grains.

SPRING RYE—Our stock of this is very limited. Spring Rye makes excellent early pasture or can be used for a hay or grain crop. Spring Rye will often produce a crop on dry land where other spring crops fail.

PRICES ON FIELD SEEDS ARE QUOTED ON PAGE TWENTY-FOUR.

Du-BAY Seed Disinfectants

TREAT BEFORE PLANTING WITH

Ask for free booklets on the use of Du-Bay Seed Disinfectants. Their use will increase your yield and profit on farm crops and your enjoyment in gardening.

NEW IMPROVED CERESAN—For the control of smut and other seed borne diseases on wheat, oats and barley. It is inexpensive, easily and quickly applied. One lb. treats 2 bushels of seed. Prices: 4-oz. can 30c; 1-lb. can 75c; 5-lb. can, \$3.25.

NEW IMPROVED SEMESAN BEL—A quick, easy dip that eliminates long soaking for potato seed treatment. It controls scab and other potato diseases in a most effective manner. Four ounces treats 15 to 20 bushels of seed. Prices: 2-oz. envelopes, 25c; 4-oz. can, 50c; 1-lb. can, \$1.50.

NEW IMPROVED SEMESAN JR.—This product should be more widely used here; it prevents seed rotting of early planted corn, and will increase stands and yields. Very inexpensive. Four ounce can treats nearly 20 acres. Prices: 2-oz. pkg., 15c; 4-oz. can, 30c; 1-lb. can, 75c.

SEMESAN—Used for treating vegetable seeds and gladiolus bulbs, and also controls damping off in hot beds. Prices: Small envelope, each 10c; 2-oz. can 35c.

Above prices do not include postage.

INOCULATE ALL LEGUME SEEDS WITH
NITRAGIN
OVER FORTY YEARS OF SERVICE
When ordering, Always state name of seed.

NITRAGIN—Alfalfa, all clovers, soy beans, cowpeas, vetch, peas and beans should all be inoculated with this original soil inoculator. Nitragin will produce more vigor and vitality, increase your yield and quality and add fertility to the soil.

PLANT-CHEM SALTS With Vitamin B₁

The new wonder liquid for growing plants with or without soil. Highly concentrated plant food and growth hormone, containing the much publicized VITAMIN B₁. One teaspoonful makes a gallon of solution. Has unlimited use—prolongs life of cut flowers—ideal to use in transplanting—makes seeds grow quicker—and you should see house plants grow when watered with this solution! 25c pkg. makes 12½ gal. solution. \$1.00 pkg. makes 100 gallons.

FERTILIZERS

Don't expect the best results with any of your crops, whether you are growing them for profit or for pleasure, unless they are given the proper food elements in the soil. The correct use of fertilizers will repay you many times.

ANACONDA TREBLE SUPERPHOSPHATE—The value of

Superphosphate as a fertilizer has long been recognized in growing sugar beets. Extensive tests prove it is equally as valuable for alfalfa, grain, and other crops. Ask for valuable booklet, "Pay Dirt," which contains a vast amount of useful information on the use of phosphate for the benefit of your land. Most crops require application of superphosphate at the rate of 125 lbs. per acre. Prices: 10 lbs. 45c; 25 lbs. 95c; 50 lbs. \$1.65; 100 lbs. \$2.75; 500-lb. lots at \$2.60 cwt.; ton lots at \$49.75 per ton.

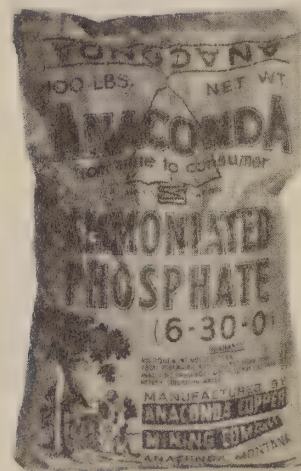

ANACONDA AMMONIATED PHOSPHATE (6-30-0)—Superphosphate with nitrate elements added. Superior for garden crops, fruits, etc.; has proven very valuable as a lawn fertilizer. Truck gardeners can increase their yields and the quality of their crops very materially by using this product. Prices: 10 lbs. 50c; 25 lbs. \$1.10; 50 lbs. \$2.00; 100 lbs. \$3.25; 500 lbs. or more at \$3.00 cwt.

Prices on all fertilizers are f. o. b. Sheridan.

FLORALIFE

Makes your cut flowers live longer. Pkt. to make 1 qt. solution, each 10c, three pkts. for 25c.

VIGORO—The complete fertilizer for lawns, gardens, flowers, or house plants. Clean and easy to use. Prices, f. o. b. Sheridan: 1 lb. 15c; 5 lbs. 50c; 25 lbs. \$1.75; 50 lbs. \$3.00; 100 lbs. \$5.00.

STEAM BONE MEAL FERTILIZER—Excellent plant food, rich in phosphate. 4 lbs. 25c; 10 lbs. 50c; 100 lbs. \$4.25.

SULPHATE OF AMMONIA—High nitrogen content, best for lawns. Must be used very sparingly. Prices: 2½-lb. pkg. 25c; 10 lbs. 70c.

"TWIST-EMS" THE PERFECT PLANT TIES

For plants, shrubs, vines, vegetables and for arranging flowers. Just a simple twist of the wrist and the plant is tied. Price per box of 125 8-in. ties, 25c; price per box of 250 4-inch ties, 25c.

PEAT MOSS

You will have better success with small flower seeds if you use Peat Moss. 5-lb. bag 35c

Ask for prices on larger quantities.

INSECTICIDES

EVERGREEN—Absolutely harmless to humans, animals, and birds, but deadly to insects on vegetables and flowers. Price: 1-oz. bottle 35c; 6-oz. bottle, \$1.00; pint, \$2.00.

CYNOGAS ANT KILLER—For outside use only. Enough to kill a million ants for 30c.

CYNOGAS "A" DUST—Suitable for killing ants, rats, or gophers and moles. Price: 1-lb. can 80c.

We carry a full line of Acme Insecticides and Fungicides. You will find the Acme line highly effective. We carry items for the control of practically all insect pests which bother us in this territory.

ARSENATE OF LEAD—Used for the control of most chewing insects damaging shade trees, vegetables, vines, etc. Does not burn the foliage. Price: ½-lb. can 20c; 1-lb. can 30c; 4-lb. bag 70c.

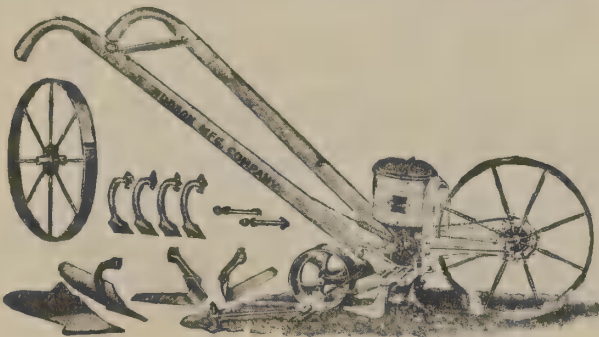

ARSENITE OF ZINC—Gaining a great deal of popularity for use in spraying potatoes. Mixes well with Lime Sulphur solution used for combating psyllid (purple top) on potatoes. Prices: 1-lb. can 35c; 4-lb. bag 65c.

BORDEAUX MIXTURE—Used for control of blight and fungus diseases and also repellent to certain types of insects. Prices: 1-lb. can 30c; 4-lb. bag 65c.

GARDEN GUARD—Used as a dust for the control of both sucking and chewing insects. It is non-poisonous to humans or animals, the active ingredient being Rotenone. Highly recommended by Federal and State authorities everywhere, and our own use has certainly proven its value. Prices: 1-lb. can 35c; 4-lb. bag 65c.

HUDSON

Seeders and Cultivators

Above illustrated is Hudson No. 201 Seeder and Cultivator outfit comprising six tools in one. May be used as hill seeder, drill seeder, double or single wheel plow or cultivator, and easily convertible to any of the different uses. Price f. o. b. Sheridan complete—\$19.75.

212—Double wheel cultivator without drill with all attachments shown above. F. O. B. Sheridan complete—\$9.95.

446—Cultivator 24 in. wheel with three attachments. F. O. B. Sheridan complete—\$3.75.

228—Single wheel cultivator similar to above illustration, with three attachments. F. O. B. Sheridan complete—\$7.50.

RED RIVER POTATO MIX—A special formula for use on potatoes only. Kills potato bugs, drives off flea beetles and prevents blight. Price: 1-lb. bag, 30c; 4-lb. bag 80c.

PARIS GREEN—1-lb. carton 50c; 5-lb. carton \$2.25.

DUSTING SULPHUR—Used in the control of rust and mildew on many bushes and flowers. Prices: 2-lb. can 25c.

DRY LIME SULPHUR—For use as a dormant spray and also used in control of potato psyllid. Prices: 1-lb. bag 30c; 5-lb. bag \$1.25; 12½-lb. bag \$2.00. We also carry liquid Lime-Sulphur.

WEED KILLER—A powerful agent for killing weeds, and all plant life on driveways, paths, etc. Price: Pint can 30c.

APHIS SPRAY—A contact insecticide for control of Aphis and other sucking and leaf eating insects. 3-oz. tube makes 1 to 8 gallons of effective spray.

NICOTINE POULTRY DELOUSER—Two ounce tube 35c; 5-oz. can 85c; pint can \$2.00.

DAWG-GONE—Keeps dogs away from Evergreens and shrubs. Tube 35c.

DOGZOFF—Keeps dogs away from Evergreens, trees, and shrubs. Per bottle 65c.

RAT LUNCHES—Ingredient in this product is deadly to rats, but will not harm pets or humans. Package of 35 for 50c.

All prices f. o. b. Sheridan; parcel post or express extra.

HUDSON SPRAYERS

Hudson sprayers are made of heavy galvanized metal. Riveted funnel top makes filling easy. Efficient air pump, brass cylinder. Adjustable nozzle. Prices f. o. b. Sheridan.

CLIMAX No. 235—3¼ gallon—Each \$5.50.

LEADER No. 192—3¼ gallon—Each \$4.85.

THRIFTY No. 120—2½ gallon—Each \$3.45.

CARDINAL No. 435—3 qt. continuous. Each \$1.40.

MERCURY No. 432—1 qt. continuous. Each 85c.

MISTY No. 452—1 qt. regular. Each 45c.

CRESCENT No. 430—1 qt. glass. Each 70c.

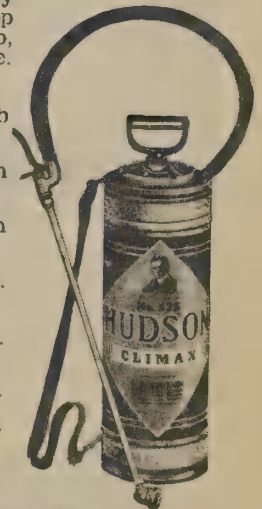

MIDGET No. 202—1 pt. Tin. Each 30c.

STARLET No. G-2½—3½ oz. glass. Each 20c.

PILOT GARDEN HOSE SPRAYER—Fastens to your Garden Hose. Each \$2.50.

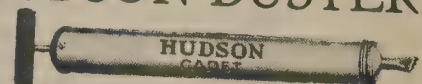

Replaceable cartridges for above, each 30c.

No. 200-W—**FLAME THROWER**. 3¼ gallon weed burner. Each \$15.95.

We carry in stock repairs for all Hudson sprayers, many parts interchangeable with other brands.

HUDSON DUSTERS

EVERGREEN PRICE LIST

Junipers - This is an exceptional genus of the Conifers, the seeds being in what appear to be berries, although botanically they are a degenerate form of the cone. The leaves are also reduced to scales or very short needles. Juniper is an ancient name meaning "forever young." Nearly all of its species are very desirable for landscape purposes, with their various colors, odd shapes obtainable, lasting qualities, hardiness, and year around foliage habits vary from slender, tall dense trees to trailing shrubbery. Most species are popularly called Cedars. Well-drained soil most suitable and generally sunny places.

Scopulorum Colorado Silver - 25 to 30 ft. - Silvery foliage thrives in poor soil quite well.

18 in. size, each - - - - - \$1.75
3 to 3½ ft. size, each - - - - \$6.25

Virginiana - Red Cedar - 30 to 40 ft. - Platte River origin upright growth. Deep green foliage; sometimes silver, sometimes becoming dark brown for short time. Excellent pyramidal tree if kept sheared. It can be sheared for any form, even Hedges.

12 in. size, each - - - - - \$.75
3 to 3½ ft. size, each - - - - \$5.00

Virginiana Cannarti - Cannart's Red Cedar - 15 to 18 ft. Foliage deep rich green. One of the best of the many grafted varieties. Often has silvery blue berries.

2 to 3 ft. size, each - - - - \$5.00

Chinensis Pfitzeriana - Pfitzer Juniper - 5 to 6 ft. Handsome gray green foliage. A valuable hardy variety, succeeding almost everywhere. Low massive spreading in habit. Can endure some shade for the first few years.

15 to 18 in. size, each - - - \$2.75
18 to 24 in. size, each - - - \$4.00

Spruces - Picca - Usually a tree, branches occur in whorls and stand nearly straight out from the trunk. Fruit is pendant thin-scaled cone. Needles are sharp-pointed, single, four-sided, growing all around the twig. Tolerant of shade.

Canadensis Albertiana - Black Hills Spruce. 40 to 50 ft. Hardest of all Spruces. Symmetrical, compact and bushy habit of growth. Foliage varies from green to bluish tint.

10 to 12 in. size, each \$1.00 - - 10 for \$8.00

Excelsa - Norway Spruce - 70 to 80 ft. Dark green, rather openly branched, pyramidal shaped and very lofty, growing rapidly. Needles extra sharp-pointed. Good for windbreaks and general planting.

3 to 4 ft. size, each - - - - - \$ 5.50

Colorado Green Spruce - 50 to 60 ft. Similar habit growth as Colorado Blue Spruce, the difference being in the color of the foliage.

12 in. Transplants - \$1.25 - 10 for \$10.00
3 to 3½ ft. size, each - - - - - \$ 7.00

Pungens Glauca - Colorado Blue Spruce - 60 to 70 ft. Foliage ranging in color from blue to silvery white. Very beautiful as a specimen tree.

12 in. Transplants, each \$1.50 - - 10 for \$12.50
3 to 3½ ft. size, each - - - - - \$ 8.25

All Evergreens are balled and burlapped, and in first class condition. Prices F.O.B. Sheridan. Ask for prices on other sizes and varieties.

Northern Special Feeds

Manufactured by us right here in Sheridan. Our chick and turkey mashes are made of the highest quality ingredients, carefully mixed to give best results with lowest cost. They have a high vitamin content, and are properly blended to give a perfectly balanced ration.

Our greatly increased business on NORTHERN SPECIAL FEEDS in 1940 indicates many new and satisfied users. Why don't you too try this high grade economy product and pave the way to better poultry profits.

All feed prices are subject to markets, and to changes without notice. Ask for prices on large quantities.

CHICK STARTING MASH—Feed Starting Mash from the time the chicks are 48 hours old until 6 weeks of age. Guaranteed 16% Protein. 100 lbs. \$2.90; 50 lbs. \$1.50; 25 lbs. 75c; 8½ lbs. 30c.

BABY CHICK SCRATCH—A scratch for chicks up to 6 weeks of age composed wholly of cracked grains. Gives the needed exercise. 100 lbs. \$2.40; 50 lbs. \$1.20; 25 lbs. 65c; 8½ lbs. 25c.

CHICK GROWING MASH—Feed Growing Mash from the time the chicks are 6 weeks of age until 5 or 6 months old. Guaranteed 17% Protein. 100 lbs. \$2.70; 50 lbs. \$1.40; 25 lbs. 75c; 8½ lbs. 30c.

ALL MASH CHICK GROWER—This feed made especially for those who do not wish to feed extra grain. Contains more ground grains than regular growing mash. 100 lbs. \$2.50; 50 lbs. \$1.30; 25 lbs. 70c; 8½ lbs. 30c.

GROWING CHICK SCRATCH—A scratch for growing chicks up to about 4 months of age. Then small whole grains may be fed or coarse cracked corn. 100 lbs. \$2.20; 50 lbs. \$1.15; 25 lbs. 60c; 8½ lbs. 25c.

LAYING MASH—Begin feeding Laying Mash when the pullets are about 5½ months of age. Early feeding causes early eggs, but production will drop heavily after a few weeks. Guaranteed 18% Protein. 100 lbs. \$2.50; 50 lbs. \$1.30; 25 lbs. 70c.

TURKEY STARTING MASH—An especially prepared mash for young turkeys containing Fish Meal as well as Cod Liver Oil. Guaranteed 23% Protein. 100 lbs. \$3.30; 50 lbs. \$1.70; 25 lbs. 85c; 8½ lbs. 35c.

TURKEY GROWING MASH—A turkey poult mash higher in fibre and lower in protein than the starting mash. Guaranteed 18% Protein. 100 lbs. \$2.70; 50 lbs. \$1.40; 25 lbs. 75c; 8½ lbs. 30c.

CONCENTRATE—An especially prepared high protein mix containing only mill feeds. For a well-balanced Laying Mash, mix with 300 lbs. of fine ground grains. Guaranteed 32% Protein, 2.5% fibre. 100 lbs. \$3.20; 50 lbs. \$1.65.

CALF MEAL—An especially prepared meal for rapid growth and fattening of bucket calves. Mix 1 tablespoon full to every bucket of skim milk fed. This may gradually be increased to 2 tablespoons full. Per 25 lbs. 95c; in 100 lb. lots, \$3.60.

We carry a full line of feed grains, mill feed, ingredients for mash, etc. We also mix rabbit and dairy feeds. Prices vary too much to make it worthwhile to quote prices here, but you will always find us in line with the market. We can mix mashes on your own formula. Ask us about it.

ROSES

Roses come in a wide variety of colors and types, and the varieties we carry are hardy and fitted for our climate. We carry some twenty varieties of Hybrid Tea Roses, as well as Dwarf Polyantha, Rugosa, Climbing Roses, and the hardy Thorn Roses. Below we list a half dozen of the most popular varieties, but we have many more.

AUSTRIAN COPPER—Single blooms, coppery red on the inside and yellow on the outside of the petals. Looks like a bush of brilliant butterflies.

CONDESA DE SASTAGO—Double blooms of two toned coppery pink inside with golden tint on outside of petals.

CALEDONIA—Very double large white blossom, long lasting, slightly fragrant bloom on long, strong stem. Very hardy.

DAME EDITH HELEN—Glowing bloom of pure pink, large, double fragrant. Very hardy, all season bloomer.

E. G. HILL—Massive blossoms of deep maroon, velvety on inside. Very fragrant. Blooms throughout the season.

GRUSS AN TEPLITZ—Considered one of the world's best roses. Fury crimson, shaded with dark velvety sheen. Large handsome flowers.

PRICES ON ROSES: No. 1 Bare Root stock, each 45c; 3 for \$1.25. Potted Roses, 75c to \$1.25 depending upon stage of growth, bloom, etc. On account of the weight, prices on potted roses are f.o.b. Sheridan. Carrying charges extra if shipped by parcel post or express.

EVERGREENS

Colorado Spruce

No other tree or shrub will take the place of Evergreens in proper landscaping of your home. Quite a large variety of Evergreens do well in our climate, and we have materially added to our stock for your selection. In addition to the two varieties illustrated **here**, we have several others in various sizes, including both the upright and spreading types. Drive to our nursery at Fairacres and make your own selection from our stock, or write for a special Evergreen price list.

Juniper

STRAWBERRY PLANTS

Locally grown strawberry plants, fresh dug to your order are the best you can obtain. We have the following varieties grown by ourselves.

GEM, Everbearing—The best money making variety, large well shaped and well flavored berry.

DORSETT—The berry is uniformly large and full, light red in color, unusual flavor.

Plants are thrifty, and drought resistant.
